

Creative Engagement

At Aging Wisdom, we understand the importance of living well and staying engaged at every stage of life. What brings joy and meaning in life can easily get overlooked.

That's why we developed our Creative Engagement Program.

What is Creative Engagement?

Creativity is innate in all of us. Creative engagement is anything that taps into and encourages a personal connection, enjoyment, enrichment, and a sense of purpose.

Meaningful Experiences. Our Creative Engagement Specialists tailor experiences to each client's unique talents and interests to enhance quality of life.

Endless Possibilities

- enjoying coffee or a special meal
- reading favorite poetry or literature together
- visiting the botanical gardens, parks
- an adventure on a ferry boat
- participating in the fine arts

“You have been a steady force on this unpredictable ride. Thanks so much for your genuine appreciation of my dad. I’ve learned from how you engage with him.” — Daughter

What Can You Expect?

Personalized program. We match just the right specialist to the specific needs and interests of each person. Our program is customized based on the client's expressed values, preferences, interests and abilities.

Communication. After each visit, our specialists provide a written narrative.

Schedule. We offer visits at a 2-hour minimum. Creative Engagement services can be provided at home or other care setting.

“We’ve been extremely pleased with your care and compassion, and love receiving weekly updates. The Specialist plans wonderful outings. It is particularly gratifying that she shares Dr. R’s love of music.” — Client’s Power of Attorney

Who Are Our Creative Engagement Specialists?

Visit our website – agingwisdom.com – to acquaint yourself with our team.

Our Specialists are carefully vetted, trained and mentored. Each offers rich life experience, and the skills and passion to engage your loved one.

This program is not a substitute for home care services. Our services may supplement home care and other types of care or attendant support, but not replace them.

The experts in aging well.
