We've all met people for the first time who seem as if we've known them forever. Samantha is that sort of person. Comfortable no matter the setting, warm and welcoming.

This serves her well as a Creative Engagement Specialist. Samantha understands and celebrates the uniqueness of each client and each client's situation. For Samantha, a large part of the appeal of being a Creative Engagement Specialist is its variety and the opportunity to personally tailor activities, enrichment, and outings to each individual client.

Samantha is imbued with a Can-Do spirit. She enjoys rolling up her sleeves and getting to work. Whether planning a scenic ride, a museum visit, helping a client organize bookshelves or clothes closet, or engaging in a hands-on art project.

Samantha completed her BA in Society, Ethics and Human Behavior as well as Media and Communications from University of Washington in 2012. With over 10 years of experience working with older adults from Assisted Living to Skilled Nursing Facilities; Samantha's skills are diverse and creative. She is passionate about creating meaningful connections with her clients and enhancing the quality of their lives.
